

RUSHABHKUMAR SAVAJ

SOFTWARE TESTER | QA ANALYST | JUNIOR QA ENGINEER

+61 480 700 861 | rushabhsavaj1810@gmail.com | Darwin, NT | linkedin.com/in/rushabh-savaj-989296317

PROFESSIONAL SUMMARY

QA-focused Master of Information Technology student with practical experience in application development, debugging and testing through Flutter work and a current web-application placement. Familiar with manual/functional/UI testing, defect reproduction, REST/JSON workflows, Postman, Git/GitHub and structured documentation. Seeking an entry-level Software Tester, QA Analyst or Graduate QA role.

TESTING & TECHNICAL SKILLS

Testing	Manual testing, functional testing, UI testing, regression concepts, test scenarios, expected results, defect reproduction and UAT concepts
API & Data	REST API testing fundamentals, Postman, JSON, SQL fundamentals, MongoDB concepts and data validation
Development	Flutter, Dart, HTML/CSS, JavaScript fundamentals; React.js/Node.js project exposure
Tools / Learning	Jira, Git, GitHub, Figma, VS Code, Excel, Power BI fundamentals; developing Jest/Supertest and test-automation knowledge

RELEVANT EXPERIENCE

IT Work Placement Intern | DVIBIT, Surat | Jul 2026 - Present

- Documenting requirements and expected behaviours for a Student Internship & Job Application Tracker to support traceable implementation and testing.
- Created responsive Figma prototypes that provide references for UI acceptance checks across desktop, tablet and mobile layouts.
- Planned REST API endpoints, validation, authentication/authorisation rules and error handling with testability in mind.
- Selected Postman for API checks and Jest/Supertest for planned unit/integration testing as implementation progresses.

Flutter Developer Intern | DVIBIT, Surat | Feb 2023 - May 2023

- Tested and debugged Flutter application screens while implementing and refining UI features.
- Checked application behaviour after code changes and collaborated with senior developers to resolve issues.
- Integrated basic APIs/JSON and used Git/GitHub to manage and review application changes.

TESTING PROJECTS

Dr. Direct: Supported front-end development and tested patient-facing Android application functionality and UI behaviour.

My Society: Supported Flutter UI development and tested workflows used to manage societies and buildings.

Job Application Tracker: Current project with planned tests for authentication, CRUD workflows, ownership rules, API validation and responsive UI.

EDUCATION

Master of Information Technology - Charles Darwin University, Darwin, NT | Currently pursuing

Bachelor of Information Technology - P P Savani University, Surat | May 2023 | CGPA 7.14/10
